

The Max Planck Institute of Biochemistry is one of the leading research institutes within the fields of biochemistry, cell- and structural biology, and biomedicine. With its eight scientific departments, about 25 research groups, and a staff of around 850 people, the institute is one of the largest institutes within the Max Planck Society.

We are inviting applications for a position as

Application Scientist (m/f/d), Next-Generation-Sequencing (NGS)

We are looking for an experienced scientist to join our established NGS service team. You will expand our portfolio of NGS applications to match the increasing demand for NGS service at our institute. Data analysis will be in close collaboration with the bioinformatics service group. You will be expected to stay abreast of changing technology, including equipment and protocols.

You have experience with Next-Generation Sequencing workflows, ideally from a facility setting. Previous experience with automation/liquid handling and bioinformatics would be considered beneficial. You will act as the customers' primary contact to this service, in an international environment, and we expect a high level of initiative.

The salary level will be according to TVöD (Bund) (public salary scale). The initial contract will be for two years, with the possibility for extension into a permanent assignment.

The Max-Planck Society is committed to increasing the number of individuals with disabilities in its workforce and therefore encourages applications from such qualified individuals.

The Max Planck Society strives for gender and diversity equality. Furthermore, the Max Planck Society seeks to increase the number of women in those areas where they are underrepresented and therefore explicitly encourages women to apply.

For further information about the MPIB, please visit www.biochem.mpg.de. Informal enquiries can be directed to Dr. Stephan Uebel (uebel@biochem.mpg.de).

**If you are interested, please apply online with representative documents as pdf files. Please click [here](#).
Deadline: 7th of April 2019.**
